

I find it very disturbing that Mr. Powell, despite widespead PUBLIC outrage and criticism, is determined to loosen media ownership rules and effectively end any independent media in this country. The FCC is supposed serve the public interest and preserve diversity of opinion and views in this country. Loosening ownership rules will ensure that FOX news (Rupert Murdoch) and ClearChannel will dictate what people will hear...and what people think. Mr. Powell, this will not stand. If you had more than one public hearing, you would get that.
